CITY COUNCIL MEETING OF: OCTOBER 17, 2007

Minutes:

TRUDY and BRUNO PLATZER, 4795 Wynn Road, founders and officers of the Las Vegas Railroad Society. MS. PLATZER summarized the founding of the organization to educate, entertain and preserve history for all the children of the community. The purpose is to enhance the quality of life for everyone in Las Vegas. This action will help to establish a first-class railroad museum with miniature trains and plentiful educational programs. She thanked all those with the City, especially the City Council, for their time and assistance.

COUNCILMAN BROWN explained that the Society will not receive 100 acres. The City will utilize a large area of land that will be under negotiations.

MR. PLATZER indicated that a representative of KG Architecture was present to answer any questions and assure the Council as to the quality of the project. MAYOR GOODMAN responded that he had no concerns regarding that issue and he was quite excited about the project.

COUNCILMAN WOLFSON discussed railroad enthusiast DAN MARKOFF who would be a good contact for the proposed project. MAYOR GOODMAN pointed out that MR. MARKOFF assisted with the City's Centennial Celebration by providing a train for display.

COUNCILMAN BROWN and MR. PLATZER utilized the overhead to point out the proposed routes for the elaborate railroad system traveling over BLM land, the Angel Park Detention Basin and into the Kellogg Sports Park. The use has received preliminary approval from the BLM subject to a more in-depth review. The environmental impact issues have been addressed. There is a lot of work left to do, but this would be the first step to enter into initial negotiations with all those involved. The placement of the track will be determined through the process.
